 ND WQS 2021 Disapproval Letter 5-12-2022 draft TF&AT comments (1).docx

Hi Erin, attached is the "final" draft of the ND letter. I have not yet sent it to OST review, but would like to since I heard that Erica will be away from the office for a few weeks and her input would be very helpful.

No word yet on a timeframe from ND, but we have an in-person meeting with DEQ next Thursday and may learn more about the state's intentions.

Thanks so much for your review!

Holly

Subject: ND draft letter status

Good morning!

Just checking in on the status of the draft letter... did it go to OST for review? Do we know if ND was looking for a specific timeframe for action before they will file the NOI?

Thanks!
Erin
